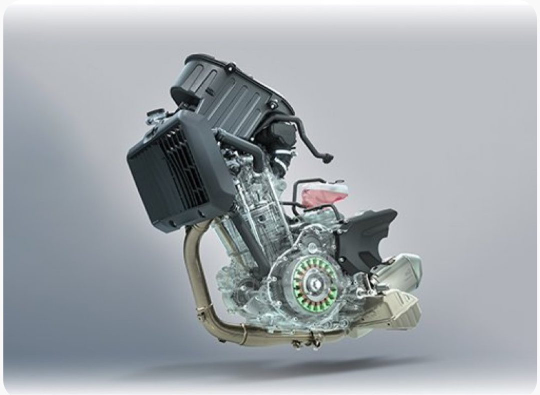
HIMALAYAN 450 FEATURES

Chassis

The steel twin-spar frame is stronger, stiffer and narrower between the legs for improved comfort while riding in a standing position. Better handling, better stability and better balance.

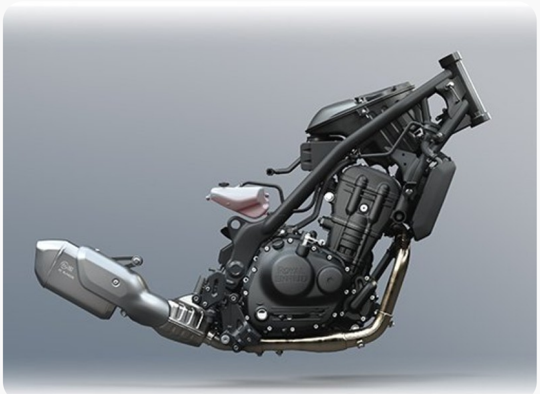


Ride by Wire with Rider Modes

Ride-by-wire with four riding modes so you can tune the response to suit the terrain and your mood, while in the background the bike delivers smooth fuelling and better fuel economy.

Water Wading

Engines and water don’t mix. But adventure and river crossings go hand-in-hand so we developed the Himalayan with a high up air intake under the tank to keep you rolling when the rivers are running high.



Seat Height

Nobody wants to stop riding because they’re saddle sore. So the new Himalayan features an adjustable two-piece seat to keep both rider and pillion comfortable, along with an optional low seat to keep your feet on the ground at any altitude.
